THURSDAY MORNING, APRIL 23 1863

CUPIDITY OF CONGRESSMEN—The New York *Tribune* says

The expiring Congress of this overburdened fearfully imperiled, almost bankrupt country have voted some $300 000 into the pockets of its own members and delegates in the shape of a *third* mileage, in clear defiance of the laws under which its members were chosen, and which they were in honor bound to respect as between themselves and the nation This makes nearly $30,000 per head paid to some of them as mileage alone, on the assumption that they have made three journeys to and from Washington to attend the sittings of this Congress, when in fact they have made but one.

This action of the last Congress ought to consign its members to everlasting shame and contempt. It is indefensible and without excuse, and though the majority professed to be Republicans, we think they richly deserve reproof and public indignation for claiming at this time such an addition to their poorly earned perquisites. We hope the ayes and nays were taken on the vote by which the rascality was consummated, as we are curious to know whether those who have so bitterly and justly denounced the frauds of contractors, were willing to show that they themselves would rob a bleeding country when the money could be put into their own pockets.—We also want to see how the Pacific members voted, whose mileage without the extra allowance was better pay than any of them can ever expect to get in any way in which they can be employed.

BY THE OREGON TELEGRAPH LINE—We received last night the first eastern dispatches over this line from Salem, being one day's later news than brought by stage. These dispatches will reach here this evening

RAILROAD AT DALLES—We learn that the cars failed to make the trip over the track from Dalles to Celilo, yesterday, owing to heavy drifts of sand on the road The difficulty will probably be remedied to day

NEWS FROM THE UPPER COUNTRY—We take the following items from the Walla Walla *Statesman*, of the 18th inst :

The steamer *Kius* ascended Snake river last week as far as the mouth of Salmon river The experience of the trip, we learn, gives no great encouragement in regard to the successful navigation of Snake river to the point named; the river being full of rapids, over which it is difficult for boats to pass

The mining season at Bannock City has fairly opened. We learn by letter that many claims yield from $15 to $20 per day to the hand, and $4 and $5 a day is easily obtained The Blackfeet Indians have been committing depredations—stealing horses and cattle, besides killing one white man, who was herding cattle. The prices current at the mines are as follows · Bacon, 75c a pound, flour, 30c; tea, $4, coffee, $1 25, tobacco, $8, sugar, $; beef, 25c

The contractor for carrying the mails to Lewiston, Florence and Elk City, and to Colville and Hellgate, has thrown up his contract. No reason assigned

A man came in from Boise this week with the information that a party of miners who started for that place by the Lewiston route arrived last week at the Payette mountains, having been forty days in making the trip from Lewiston to the mountains. The party had endured many hardships, having got nearly out of provisions, and suffered much from cold. They were finally compelled to cross over to the Grand Ronde and Auburn road in order to reach Boise

"To oppose the invading force composed of an army which already exceeds one million three hundred thousand men, we had no resources but the union and valor of a people determined to be free, and were so destitute of military supplies that tens of thousands of our citizens were reluctantly refused admittance in the army from their inability to furnish arms while for many months some of our strongholds owed their safety chiefly to the careful concealment of the fact that we were without supplies of powder for our cannon Your devotion and patriotism triumphed over all these obstacles and called into existence munitions of war clothing and sustenance, which enabled our soldiers to illustrate their valor on memorious battlefields, and to inflict crushing blows on successive armies each of which is so arrogant as to assume to be invincible At no previous period of the war has our force been so numerous and well armed—so thoroughly disciplined as at present The season of high water on which the enemy relied to enable their fleets and gunboats to penetrate our country and desolate our homes, is fast passing away yet our strongholds on the Mississippi river still bid defiance to the foe, disaster has been the result of their every effort to reduce the strongholds of the Mississippi Within a few weeks the falling waters and increasing heat of summer will complete their discomfiture and compel their baffled and defeated forces to abandon the expedition on which their chief hopes are based in effecting our subjugation We must not forget, however, that the war is not yet ended, that we are still confronted by powerful armies and threatened by numerous fleets and that the Government which controls these armies and fleets is driven to the most desperate efforts to achieve its unholy purpose in which it has thus far been defeated It will use its utmost energies to avoid the impending doom so fully merited by the atrocities it has committed, the savage barbarities it has encouraged and the cowardly attempts to incite a servile people to massacre our wives and daughters and helpless children There is but one danger which the Government of our choice regards with apprehension to avoid this danger, it appeals to the never failing patriotism which you have exhibited since the beginning of the war"

Bill of James Burk for rent of No 3's Engine House $40 referred to committee on fire and water.
Report of City Treasurer for the quarter ending March 31st, 1863, referred to Committee on Ways and Means.
Messrs. King, Sherlock and Knott were appointed a committee to revise the rules of order.
The clerk was authorized to have printed fifty copies of the amendments to the city charter with list of officers of the city council.
The Council then elected the following officers: City Marshal, J. F. McCoy; Street Commissioner—Dan. Wright; City Surveyor—A. B. Hallock; Printer—R. D. Austin. Election of City Attorney postponed for the present. Adjourned.

A Fiery Case.—A vagabond named Andrew J. Hunter, *alias* "Scotty," was arrested yesterday, by Marshal Clark, and lodged in the City jail for drunken and disorderly conduct. Notwithstanding the fact that the Marshal had carefully searched his person before locking him in, he soon after contrived to start a fire in his cell, and had it not been for the timely discovery by an inmate of an adjoining cell, who succeeded in putting out the fire by dashing water through the grating, the jail would soon have been enveloped in flames. This makes the second or third attempt this imp of the inflammatory regions has attempted to fire the jail, and he deserves to be "hauled over the coals" in a way that will make him feel the effects of his rascality. We understand he is to tried, to day, for the offence.

Army Transportation Contract Again.—We stated on Tuesday last, that the proposition of the Oregon Steam Navigation Company to transport Government freight was lower than any other, and that we presumed it would be accepted. As the *Times* announced on the same morning that the contract had been awarded to the People's Line, we have taken the trouble to get accurate information from the highest sources not connected with either Company, as we do not wish to give currency to unfounded rumor, and we repeat our first statement, with this addition that *the Quartermaster has notified the Oregon S. N. Navigation Company that its bids are accepted.* Our only interest in the matter is to be accurate, and we supposed we were so at first, and are now sure of it.

Heavy Stock Operation.—The officers of the O. S. N. Company were busily engaged yesterday in turning over to Capt. Hopkins, U. S. Army, all the mules and wagons lately used on the portage. The mules, 119 in number, were the finest lot of animals we have ever seen. With the mules was a large lot of heavy wagons, and the necessary harness all of which is now the property of the United States. The price paid for the animals, harness, etc., may be stated in round figures at $100,000. Rather a heavy stock operation.—*Dalles Journal.*

The *Mountaineer* says: We learn, upon good authority, that the Commissioner of the General Land Office has rendered his decision in the case of the Methodist Mission claim to the land on which the town of Dalles is built. The Commissioner decides adverse to the claim. Exceptions have been taken to the decision on certain law points, which have been taken to the Attorney General. We congratulate our citizens upon the certainty that this dark shadow upon our land titles is about to be removed.

An Incontrovertible Fact.—A medicine [illegible] and skilfully compounded, which makes [illegible] pretensions and is recommended by citizens of the highest respectability, deserves the patronage of the public. Such a medicine is Dr. Hall's [illegible], a cure for CONSUMPTION in all its different stages.

Last Cruise of the Monitor

(Continued)

An hour passed the air below, which had all day been increasing in closeness, was now almost stifling, but our men lost no courage Some sang as they worked and the cadence of the voices, mingled with the roar of waters, sounded like a defiance to Ocean

Some stationed themselves on top of the turret and a general enthusiasm filled all breasts as huge waves, twenty feet high rose up on all sides hung suspended for a moment like jaws open to devour and then, breaking gnashed in foam from side to side. Those of us new to the sea, and not appreciating our peril, hurrahed for the largest wave but the captain and one or two others still, and knowing its power, grew momentarily more and more anxious, feeling, with a dread most active the sailor, that in case of extremity no wreck was known to ocean could be so helpless as this Solid iron from keelson to turret top clinging to anything for safety, if the *Monitor* should go down, would only insure a share in her fate No mast no spar no floating thing to meet the outstretched hand in the last moment.

The sea, like the old world giant, gathered force from each attack Thick and fast came the blows on the iron mail of the *Monitor* and still the brave little vessel held her own, until, at half past eight the engineer, Waters faithful to the end reported a leak The pumps were instantly set in motion, and we watched their progress with intense interest. She had seemed to us like an old timed knight in armor battling against fearful odds, but still holding his ground. We who watched, when the blow came which made the strong man reel and the life blood spout, felt our hearts faint within us then again ground was gained, and the fight went on, the water lowering somewhat under the laboring pumps

From nine to ten it kept pace with them From ten to eleven the sea increased in violence the waves now dashing entirely over the turret, blinding the eyes and causing quick catchings of the breath as they swept against us At ten the engineer had reported the leak as gaining on us, at half past ten, with several pumps in constant motion, one of which threw out three thousand gallons a minute, the water was rising rapidly, and nearing the fires When these were reached, the vessel's doom was sealed, for with their extinction the pumps must cease, and all hope of keeping the *Monitor* above water more than an hour or two expire Our knight had received his death blow, and lay struggling and helpless under the power of a stronger than he.

A consultation was held, and not without a conflict of feeling, it was decided that signals of distress should be made Ocean claimed our little vessel, and her trembling frame and failing fire proved she would soon answer his call A pang went through us, as we thought of the brave iron clad lying alone at the bottom of this stormy sea, her guns silenced, herself a useless mass of metal Each quiver of her strong frame seemed to plead with us not to abandon her The work she had done the work she was to do, rose before us, might there not be a possibility of saving her yet?—her time could not have come so soon We seemed to hear a voice from her saying—"Save me for once I have saved you! My frame is staunch still, my guns may again silence the roar of Rebel batteries The night will pass, and calm come to us once more. Save me!" The roar of ocean drowned her voice, and we who descended for a moment to the cabin knew, by the rising water through which we waded, that the end was near

Small time was there for regrets. Rockets were thrown up, and answered by the *Rhode Island*, whose brave men prepared at once to lower boats, though in that wild sea, it was almost madness

The *Monitor* had been attached to the *Rhode Island* by two hawsers, one of which had parted at about seven P M The other remained firm, but now it was necessary it should be cut How was that possible, when every wave washed clean over her deck? what man could reach it alive? "Who'll cut the hawser, shouted Captain Bankhead Acting Master Stoddor volunteered, and was followed by another Holding by one hand to the ropes at her side, they cut through, by many blows of the hatchet, the immense rope that united the vessels Stodder returned in safety, but his brave companion was washed over and went down

The men were quiet and controlled, but all felt anxiety. Master's-Mate, Peter Williams suggested bailing, in the faint hope that in this way the vessel might be kept longer above water A bailing party was organized by John Stocking, boatswain, who, brave man, at last went down Paymaster Keeler led the way, in company with Stocking, Williams, and one or two others, and though the water was now waist-deep, and they knew the vessel was liable to go down at almost any moment, they worked on nobly, throwing out a constant stream of water from the turret.

Meanwhile the boat launched from the *Rhode Island* had started out, manned by a crew of picked men.

A mere heroic impulse could not have accomplished this most noble deed. For hours they had watched the raging sea. Their captain and they knew the danger, every man who entered that boat did it at the peril of his life, and yet all were ready. Are not such acts as these convincing proof of the divinity in human nature?

We watched with straining eyes, for few thought she could live to reach us She neared, we were sure of her, thank God!

In this interval the cut hawser had become entangled in the paddle wheel of the *Rhode Island*, and she drifted down upon us, we, not knowing this fact, supposed her coming to our assistance, but a moment undeceived us. The launch sent for our relief was now between us and her—too near for safety. The steamer bore swiftly down, stern first, upon our starboard quarter "Keep off! keep off!" we cried, and then first saw she was helpless Even as we looked, the devoted boat was caught between the steamer and the iron-clad—a sharp sound of crushing wood was heard—thwarts, oars and splinters flew in air—the boat's crew leaped to the *Monitor's* deck Death stared us in the face, our iron prow must go through the *Rhode Island's* side, and then an end to all One awful moment we held our breath—then the hawser was cleared—the steamer moved off, as it were, step by step first one, then another, till a ship's length lay between us, and then we breathed freely But the boat!—had she gone to the bottom, carrying brave souls with her? No, there she lay, beating against our iron sides but still, though bruised and broken, a life boat to us.

There was no hasty scramble for life when it was found she floated, all held back The men kept steadily on at their work of bailing—only those leaving, and in the order named, whom the captain bade save themselves They descended from the turret to the deck with mingled fear and hope, for the waves tore from side to side and the coolest head and bravest heart could not guaranty safety Some were washed over as they left the turret and, with a vain clutch at the iron deck, a wild throwing up of the arms, went down, their death cry ringing in the ears of their companions

The boat sometimes held her place by the *Monitor's* side, then was dashed hopelessly out of reach rising and falling on the waves A sailor would spring from the deck to reach her, be seen for a moment in mid air, and then, as she rose fall into her So she gradually filled up but some poor souls who sought to reach her, failed even as they touched her receding sides, and went down

We had on board a little messenger boy, the special charge of one of the sailors and the pet of all, he must inevitably have been lost, but for the care of his adopted father who, holding him firmly in his arms, escaped as by a miracle being washed overboard, and succeeded in placing him safely in the boat.

The last but one to make the desperate venture was the surgeon He leaped from the deck and at the very instant saw the boat being swept away by the merciless sea Making one final effort he threw his body forward as he fell striking across the boat's side so violently, it was thought some of his ribs must be broken "Haul the Doctor in!" shouted Lieutenant Greene, perhaps remembering, how a little time back, he himself almost gone down in the unknown sea, had been hauled in by a bowline rope flung him by the Doctor Stout sailor arms pulled him in, one more sprang to a place in her, and the boat, now full pushed off—in a sinking condition, it is true, but still bearing hope with her, for she was *wood*

Over the waves we toiled slowly pulling for life The men stuffed their pea jackets into the holes in he side, and bailed incessantly We neared the *Rhode Island* but now a new peril appeared Right down upon our centre borne by the might of rushing water came the whale boat sent to rescue others from the iron clad We barely floated if she struck us with her bows full on as we must go to the bottom One sprang and as she neared with outstretched arms met and turned her course She passed against us and his hand caught between the two, was crushed and the arm, wrenched from its socket, fell a helpless weight at his side but life remained We were saved and an arm was a small price to pay for life

INDUCED by the extensive sale and universal popularity of Hoofland's German Bitters (purely vegetable,) hosts of ignorant Quacks and unscrupulous adventurers have opened upon suffering humanity the flood gates of Nostrums in the shape of poor Whisky, vilely compounded with injurious drugs and christened Tonics, Stomachics and Bitters

Beware of the innumerable array of Alcoholic preparations in plethoric bottles and big bellied kegs, under the modest appellation of Bitters which instead of curing only aggravate disease, and leave the disappointed sufferer in despair

Hoofland's German Bitters!

Are not a new and untried article but have stood the test of fifteen years trial by the American public, and their reputation and sale are not rivalled by any similar preparation

The proprietors have thousands of letters from the most eminent

CLERGYMEN
LAWYERS,
PHYSICIANS
and
CITIZENS,

Testifying of their own personal knowledge, to the beneficial effects and medical virtues of these Bitters,

Do you want something to strengthen you?
Do you want a good appetite?
Do you want to build up your constitution?
Do you want to feel well?
Do you want to get rid of nervousness?
Do you want energy?
Do you want to sleep well?
Do you want a brisk and vigorous feeling?

If so, use HOOFLAND'S GERMAN BITTERS.

From Rev. J Newton Brown D D Editor of the Encyclopedia of Religious Knowledge

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters prepared by Dr C M Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture I am indebted to my friend Robert Shoemaker, Esq for the removal of this prejudice by proper tests, and for encouragement to try them when suffering from great and long continued debility The use of three bottles of these Bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before and had almost despaired of regaining. I, therefore, thank God and my friend for directing me to the use of them

J NEWTON BROWN

PHILADELPHIA June 23 1861

PARTICULAR NOTICE.

There are many preparations sold under the name of Bitters put up in quart bottles, compounded of the cheapest whiskey or common rum, costing from 20 to 40 cents per gallon the taste disguised by Anise or Coriander Seed.

This class of Bitters has caused and will continue to cause as long as they can be sold hundreds to die the death of the drunkard By their use the system is kept continually under the influence of Alcoholic Stimulants of the worst kind the desire for Liquor is created and kept up, and the result of it is all the horrors attendant upon a drunkard's life and death

For those who desire and **will have** *a Liquor Bitters, we publish the following receipt Get* **One Bottle Hoofland's German Bitters** *and mix with* **Three Quarts of Good Brandy or Whiskey,** *and the result will be a preparation that will* **far excel in** *medicinal virtues and true excellence any of the numerous Liquor Bitters in the market and will* **cost much less.** *You will have all the virtues of* **Hoofland's Bitters** *in connection with a* **good** *article of Liquor, at a much less price than these inferior preparations will cost you*

ATTENTION, SOLDIERS!

AND THE FRIENDS OF SOLDIERS

We call the attention of all having relations or friends in the army to the fact that HOOFLAND'S German Bitters will cure nine tenths of the diseases induced by exposures and privations incident to camp life In the lists, published almost daily in the newspapers on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility Every case of that kind can be readily cured by Hoofland's German Bitters Diseases resulting from disorders of the digestive organs are speedily removed We have no hesitation in stating that, if these Bitters were freely used among our soldiers, hundreds of lives might be saved that otherwise will be lost

We call particular attention to the following remarkable and well authenticated cure of one of the nation's heroes, whose life, to use his own language, "has been saved by the Bitters"

PHILADELPHIA August 23, 1862.

Messrs Jones & Evans—Well gentlemen, your Hoofland's German Bitters has saved my life There is no mistake in this It is vouched for by numbers of my comrades, some of whose names are appended and who were fully cognizant of all the circumstances of my case. I am, and have been for the last four years, a member of Sherman's celebrated battery and under the immediate command of Captain R B Ayres Through the exposure attendant upon my arduous duties I was attacked in November last with inflammation of the lungs and was for seventy two days in the hospital This was followed by great debility heightened by an attack of dysentery. I was then removed from the White House and sent to this city on board the steamer *State of Maine* from which I landed on the 28th of June Since that time I have been about as low as any one could be and still retain a spark of vitality For a week or more I was scarcely able to swallow anything and if I did force a morsel down, it was immediately thrown up again

I could not even keep a glass of water on my stomach. Life could not last under these circumstances, and, accordingly the physicians who had been working faithfully, though unsuccessfully to rescue me from the grasp of the dread Archer frankly told me they could do no more for me and advised me to see a clergyman and to make such disposition of my limited funds as best suited me An acquaintance who visited me at the hospital Mr Frederick Steinbrou of Sixth below Arch street advised me, as a forlorn hope to try your Bitters and kindly procured a bottle From the time I commenced taking them the gloomy shadow of death receded and I am now, thank God for it, getting better Though I have taken but two bottles I have gained ten pounds and I feel sanguine of being permitted to rejoin my wife and daughter, from whom I have heard nothing for eighteen months, for, gentlemen, I am a loyal Virginian from the vicinity of Front Royal To your invaluable Bitters I owe the certainty of life which has taken the place of vague fears—to your Bitters will I owe the glorious privilege of again clasping to my bosom those who are dearest to me in life

Very truly yours ISAAC MALONE.

We fully concur in the truth of the above statement, as we had despaired of seeing our comrade Mr Malone, restored to health.
